

# Piersons favorite things to do

Pierson is such an angry person but he likes to

## playing the Bass guitar

**Bass playing is a way I detox from stress, Recently it has been my go to stress releaf and I have been practicing everyday for about an hour. You could also play different genres that fit with your specific emotion but usually I play metal music specifically**

**such as Metallica, megadeth, pantera and many more**

## collecting things

**I love collecting music or items of characters that I like. For some reason it makes me happy collecting figures and cds, I know im one of the few people who still use CDs but I just think they are better than the aux chord.**

## shopping

**I love in-person shopping! Im what they call a introverted-extrovert, I love being out in crowds or busy places but I do not like talking to people and I am very awkward. Some things I like to do at stores are listed below.**

- I love shopping for food to cook
- I love shopping for records and CDs
- I love just being at stores
- I like looking at the entertainment section

## Why am I taking this class?

**I am taking this class to add on to my hardware skills. My major is I.T. and I am working to be a helpdesk tech. Adding programming to my skillset would be very handy**

[Mchenry county college](#)
